Main Product & Inverter Power Supply : I. Product introduction This system is the intelligent power supply product with independent intellectual property right developed on the latest U.S. microcontroller (MCU) simulation platform for two years, this product adopts digital phase synchronization lock technology, the system can realize totally independent current ...

Ever since, Coslight Company has attached great importance to user training. In the splendid city, Harbin, the company founded Coslight users training center with the first class teaching and ...

Harbin Coslight Power Co., Ltd. was founded in 1998 with a registered capital of RMB 231,023,000. Up to the end of 2007, its total asset has reached : RMB 960,000,000. Presently, it covers a land area of over 170,000 sq.m and the construction area is more than 100,000 sq.m. The staff of the company is 2680, including 208 technicians and 96 ...

The production base of Coslight lithium batteries for vehicles is located in Harbin, occupying 110,000 m<sup>2</sup>, and the building area is 67,000 m<sup>2</sup>. The first stage construction will be completed in ...

Uninterruptible power supply systems (UPS) Automation technology for battery production; Contact Information + <https://> Harbin Coslight New Energy Co., Ltd. No.8, Taihunan Road, Yingbin Road Concentration Zone, Development Zone, 150000 Harbin/Heilongjiang, China.

Main Product & Communication Power Supply : The communication power supply is divided into two types 1. Composed of 30A rectifier 48300A/30 system 2. Composed of 50A rectifier 48600 A/50 system Main system characteristics 1. The rectifier module adopts active power factor compensation technology, with the power factor value of 0.99. 2.

Harbin Coslight New Energy Co., Ltd. (Cospowers for short) is a national high-tech enterprise focusing on the development of the lithium battery energy storage industry. The technical team ...

ZJK-1 is a high-performance monitoring device developed and produced by Harbin Coslight Power Co., Ltd. in 2005. The device adopts Flash ROM) and MCU that meets the requirement of modern industrial control, with the main ...

Main Product & GYYZ Emergency DC Power Supply : I. Product introduction The field DC power supply of transformer substation is the energy foundation of all the equipments, the failure of DC equipment will result in power off of all the monitoring and protection equipments on the site, the whole protection equipment will fail and cause serious harmful consequence.

The good service is an important competitive advantage for Coslight power. 1) Service Quality and Attitude--Best and Speedy ... In the splendid city, Harbin, the company founded Coslight users training center with the first class teaching and living facilities. Each day, the center has to receive the Coslight users from
