

What is high-density mobile shelving?

High-density mobile shelving is a solution that allows you to store more in less space while improving your company's accessibility, organization, and ergonomics. If you want to dramatically shrink your storage footprint, then high-density shelving is the right solution for you.

What is a high density mobile storage system?

The most widely used high-density mobile system, available in all modes of operations and offers an array of safety options. A solution for storing large or heavy items without facility expansion or renovation, heavy-duty mobile storage systems can hold 7,000 to 30,000 pounds per carriage.

Does southwest solutions offer high density drawer cabinets or shelving?

Southwest Solutions offers high density drawer cabinets or shelving options. Our highly experienced design team can develop just the shelving system you want, including:

What is a wafer storage desiccator cabinet?

Wafer Storage Desiccator Cabinets | High Density Storage! Wafer storage desiccator cabinets offering high density storage of up to 12" diameter silicon wafers in standard wafer carriers (boxes).

Are industrial high-density storage systems worth it?

Industrial high-density storage systems are worth considering for storing heavy and bulky items. These shelving systems are designed for industrial use and can be installed with aisles large enough to allow forklifts and other equipment to maneuver through safely and easily.

How does high density shelving function?

High-density shelving eliminates unused space, keeps all items together in a central location, and can reduce the need to invest in expensive and inconvenient offsite storage. You can choose from two different modes of operation to move your mobile shelving: mechanical assist (hand-crank) or powered (push-button).

Simplify and Improve Storage. High-density storage systems are like a breath of fresh air for cluttered spaces. They bring order and simplicity to the chaos. Think of it as upgrading from a messy drawer of utensils to a neatly organized one ...

High density storage cabinets Equatorial Guinea

Our high-density mobile aisle storage systems are designed to maximize your storage capability, allowing you to store more in less space without compromising accessibility or organization. ...

Our family entered the field of mobile storage in 1966, quickly becoming one of the world's leading manufacturers of high density storage systems. Hi-Density(TM) has been on the leading edge in the areas of design, engineering, and customer service. Consistently introducing new and unique models to fit the ever-changing needs of our customers.

A high-density system could provide the equivalent storage capacity of 164 five-drawer storage cabinets in the same space the 61 file cabinets would have occupied. With this investment, the client saved money and freed up enough floor space for two additional private offices, reducing their monthly lease space cost.
