BESS consists of one or more batteries and can be utilized to balance the electric grid, deliver backup power and improve grid stability. India's battery energy storage systems market is segmented by battery and connection types. The market is segmented by battery type into lithium-ion, lead-acid, flow, and other battery types.

The global Battery Energy Storage System (BESS) Market is experiencing significant growth due to the increasing demand for grid energy storage systems amid grid modernization and the rising adoption of renewable energy sources. The market is segmented by type, including lithium-ion batteries, lead-acid batteries, nickel metal hydride, and other ...

Further BESS investment expected. Investment in BESS is predicted to continually grow over the course of the 2020s. McKinsey & Company analysis shows more than \$5 billion was invested in BESS in 2022, an almost threefold increase from the previous year. Looking ahead, it's expected the global BESS market will reach \$120-\$150 billion by 2030.
