

How to rent independent energy storage

Should you rent a battery energy storage system?

Renting a Battery Energy Storage System from Sunbelt Rentals is a smart choice for your business and your bottom line. Owning this equipment can tie up capital and reduce your business's ability to react to changing market conditions.

Why should you lease a site for a battery energy storage system?

Land is the most important resource for the development of battery energy storage systems. Several factors must be considered when considering the leasing of a site for a BESS project, some of the most important being: The size of the land required for a BESS project depends on the capacity of the battery system.

What are the benefits of a residential storage system?

Residential storage: Primarily used for home resiliency to deliver back-up power, these systems can also shift energy consumption to off-peak hours and integrate home solar for a low-cost clean energy supply. Residential storage systems can be eligible for Inflation Reduction Act tax credits.

Why is energy storage important?

Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers. Energy storage is essential to a resilient grid and clean energy system.

How do utilities encourage energy storage?

Utilities often offer incentives to encourage the adoption of energy storage systems to improve grid reliability and balance supply and demand. These incentives may include demand response programs, time-of-use rate structures, or capacity market participation.

Should energy storage be included in the electric grid?

Integrating storage in the electric grid, especially in areas with high energy demand, will allow clean energy to be available when and where it is most needed. As New York continues to invest and build a cleaner grid, energy storage will allow us to use existing resources more efficiently and phase out the dirtiest power plants.

If you're here, you're probably wondering how a giant "energy bank" like the Wellington Independent Energy Storage Station could reshape New South Wales' power grid. Spoiler: it's ...

Our BESS rentals store and provide energy to construction sites, commercial facilities, and events where continuous power is essential. Browse industrial battery storage rental options below.
