Eswatini has launched a tender to develop a solar minigrid project to electrify the Bulimeni community, which includes 92 households in the Shiselweni region of southern Eswatini. The tender invites private minigrid developers to design, construct, operate, and maintain the Bulimeni Solar PV-Battery minigrid project for a 20-year operation period.

In the serene yet underserved part of the Manzini region in Eswatini, stands a beacon of hope and innovation - Sidvokodvo Clinic. Despite being operational for only two years, the clinic has already become a model for sustainable healthcare delivery, powered by a pioneering solar initiative. ... With stable solar power, we are no longer at ...

The main electricity supplier in South Africa has been implementing rolling power cuts, called load shedding, to various areas of the country. This is due to a lack of infrastructure to handle the local demand. The load shedding in South Africa has been growing steadily, and it can last for up to eight hours a day. Since this supplier also provides electricity to TWR's office and staff ...

A stand-alone mini-grid with a centralised 35kW solar PV plant with a 200kWh lithium-phosphate BESS, smart meter system, and an LV reticulation network designed with aerial bundled conductors. This smart 35kW mini-grid solar project, estimated at R3.5 million, was commissioned and operational on 1 January 2021.

This comes after Eswatini Energy Regulatory Authority (ESERA) published its intention to award contracts to preferred bidders for 75MW solar PV generation capacities in ...
