Who is innargi?

Originally a one-project venture in Aarhus, Innargi is now an international geothermal company with several projects in Northern and Eastern Europe. Our mission is to bring clean, reliable heating to Europe through the renewable resource beneath our feet - geothermal energy.

Who owns innargi?

Why are we here Innargi was founded in 2017 by A.P. Moller Holding in order to examine whether competences from many years in oil and gas could help unlock the potential of geothermal energy for district heating. Today, Innargi is jointly owned by ATP (Denmark's largest pension fund), NRGi (customer-owned utility company) and A.P. Moller Holding.

What makes innargi a good company?

Loyalty binds us together as a unified team; we stand by one another, supporting decisions made in the best interest of Innargi and its values. Accountability is the cornerstone of our operations; we hold ourselves responsible for our actions, cultivating trust through our commitment to delivering on our promises.

District heating company Fjernvarme Horsens A/S and Innargi A/S have entered into an agreement to investigate the possibilities of establishing geothermal energy for district heating. Fjernvarme Horsens requires heat for its expanding customer base, while Innargi anticipates that the subsurface beneath Horsens presents favorable opportunities ...

Kredsløb and Innargi has entered a 30 year agreement on the development and operation of the heating plant. The project kicked off in November 2023 with drilling the first of 17 wells, expected to deliver the first heat in 2025.

Innargi is a geothermal heating company, aiming to heat millions of urban homes while leaving zero impact on our planet. Geothermal energy is a large renewable energy source originating from the Earth's interior. By unearthing the subsurface heat - similar to how we harness energy from sun and wind - it can serve as a sustainable heating ...
