

Is it easy to find a job in energy storage science

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

What makes field a great energy storage company?

The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet. They're absolutely essential to the Field business, enabling us to do the work we do.

How can you store energy?

You can store energy in several ways. Just as you can store potential energy by lifting a block in the air, you can store it thermally by heating things up. Companies are banking heat in molten salt, volcanic rocks, and other materials. Giant batteries, based on renewable chemical processes, are also workable.

What can energy storage technologies store?

Energy-storage technologies can store any kind of power--clean or dirty. They are neutral as to the fuel source, according to Leah Stokes, a political scientist at the University of California, Santa Barbara. Storage may become a partisan issue if it begins clearly helping renewable energy to threaten fossil fuels.

What role does technology play in energy storage?

Technology has a very important role to play in energy storage and has been instrumental in getting the industry to where it is now. That said, we're still learning and solving complex problems each day. This means the industry needs software developers and data scientists, along with machine learning and optimisation experts.

Why do energy storage companies need a strong finance team?

Regardless of which sector they're working in, businesses need strong finance, legal and people teams. The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet.
