Six 5-15R outlets provide battery backup, 567 joules of surge protection and voltage regulation for your crucial components. Five are UPS-supported, and ...

You will need to check if there are any other devices on the circuit breaker feeding that outlet so you don't overload them. Two pumps - one primary and one battery backup. To keep this simple I highly recommend you get the Zoeller 508 Fit battery back up system. Second I would check the condition and if possible the age of your primary sump.

Single plug battery backup outlet? I have a sound machine for my son that is plugged into the wall. I live where there are a lot of storms and power outages so if the power goes out the machine turns off and baby wakes up which isn't fun for anyone. I don't know anything about electricity, but I searched google for some sort of single outlet ...
