Who are Manx solar electrical?

You might be surprised! 2019 Manx Solar Electrical Ltd. Registered in the Isle of Man No. 127 689C. VAT Registration No. 004 6877 73 The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

How reliable are solar panels?

Solar panels convert the light from the sun into electricity, with no moving parts they are very reliable a 30 year life is realistic, that means with payback averaged at 9 years, you can have 21 years of free electricity! Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity).

Will the Isle of Man be short of baseload power?

Both UK and RoI are predicted to become short of baseload power over the next decade. Opportunities for the Isle of Man to provide stabilising power to GB or ROI from a large-scale baseload power station, e.g. biomass or a small modular reactor? Neither option is without challenge, but likely provide the greatest potential for export.

Can the Isle of Man provide stabilising power to GB or ROI?

Opportunities for the Isle of Man to provide stabilising power to GB or ROI from a large-scale baseload power station, e.g. biomass or a small modular reactor? Neither option is without challenge, but likely provide the greatest potential for export. These options have not been explored in the analysis.
