

Italy interpower ltd

How can Interpower help you build equipment that can be sold worldwide?

At Interpower, we can make it easier to build equipment that can be sold worldwide by incorporating into the product design the Accessory Power Strip, which is different IEC 60320 components working together in one system.

Where are Interpower products made?

Interpower manufactured products are made in Iowa and 100% tested. Contact Customer Service about pricing and technical aspects, such as application and/or approvals, for help in obtaining required documentation, and to assist you in designing specialty products. Ask about blanket or scheduled orders.

Does Interpower offer a jumper cord set?

Interpower offers a variety of jumper cord sets that include current ratings of 2.5A to 20A and voltage ratings of 125VAC to 250VAC. They are available in different conductor sizes and cable types. See the complete line of accessory power strips and jumper cords and cord sets offered by Interpower.

Does Interpower offer free technical support?

Interpower offers free technical support to assist you. Interpower offers a 1-week U.S. manufacturing lead-time on non-stock Interpower products. We have same day shipments on in-stock products and no minimum order or dollar requirements. Interpower manufactured products are made in Iowa and 100% tested.

What equipment does Interpower induction offer?

Interpower Induction also offers a wide range of electric glass melting and re-heating equipment. This range was introduced to improve output whilst vastly reducing running costs and the industry's carbon footprint. Interpower Induction is the world leading supplier and developer of Zone Control Technology[®]; and induction heating equipment.
