

# Japan's energy storage layout plan is announced

Will Japan have a strategic energy plan in 2021?

Since the previous revision of the Strategic Energy Plan in October 2021, the energy situation surrounding Japan has changed. In light of this, the Advisory Committee for Natural Resources and Energy advanced discussions on the next Strategic Energy Plan.

How often is Japan's Strategic Energy Plan reviewed?

The Strategic Energy Plan is reviewed at least every three years and is revised if it is considered necessary to reflect the latest energy issues. The energy situation affecting Japan has changed substantially since the last 6th Strategic Energy Plan was approved by the Cabinet in October 2021.

What is Japan's Strategic Energy Plan?

The Government of Japan formulates the Strategic Energy Plan under the Basic Act on Energy Policy to show the basic directions for Japan's energy policies. The Advisory Committee for Natural Resources and Energy started discussions on the Seventh Strategic Energy Plan in May 2024 and presented the draft version of the plan on December 17, 2024.

What is Japan's energy storage policy?

As policy, technology, and decarbonization goals converge, Japan is positioning energy storage as a critical link between its climate targets and energy reliability. Japan's energy storage policy is anchored by the Ministry of Economy, Trade and Industry (METI), which outlined its ambitions in the 6th Strategic Energy Plan, adopted in 2021.

How has Japan's energy situation changed since the 6th Strategic Energy Plan?

The energy situation affecting Japan has changed substantially since the last 6th Strategic Energy Plan was approved by the Cabinet in October 2021. The world's energy situation has undergone a complete change since Russia's aggression against Ukraine started in February 2022.

What is Japan's 7th strategic energy plan?

Japanese Prime Minister Shigeru Ishiba (Source: Wikimedia Commons) Japan's seventh Strategic Energy Plan, finalised on Feb. 18, 2025, targets 40-50% renewable energy and 20% nuclear power by 2040 but faces criticism for being overly optimistic.

The Government of Japan formulates the "Strategic Energy Plan" to show the direction of Japan's energy policy. It is reviewed at least every 3 years in view ...
