composts, and ...

container detection; containers are detected by the type trait `sol::is_container<T>`. If that turns out to be true, `sol3` will attempt to push a userdata into Lua for the specified type `T`, and bestow it with some of the functions and properties listed below. These functions and properties are provided by a template struct `sol::usertype_container<T>`, which has a number of static Lua C functions ...

So I'm building a small rest api with java using Jersey 2.23.2. I have run into a problem however, I am not able to specify the servlet in the web.xml file properly.

The related jar is `jersey-container-servlet-core.jar` which comes bundled within the `jaxrs-ri-2.2.1.zip`. JAX RS can be worked out without mvn by manually copying all jars contained within zip file `jaxrs-ri-2.2.1.zip` (i have used this version, would work with any 2.x version) to `WEB-INF/lib` folder. Copying libs to right folder makes them ...

A Servlet or Filter for deploying root resource classes.. The following sections make reference to initialization parameters. Unless otherwise specified the initialization parameters apply to both server and filter initialization parameters.
