Is SolarSpace launching a 5GW high-efficiency solar cell plant in Laos?

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production capacity. SolarSpace marked the start of the first phase of its 5 GW high-efficiency solar cell plant in Laos at a recent launch event in the Saysettha Development Zone.

Does Laos have a solar sector?

The news is also a positive development for the Laos solar sector. Last year, the country began construction on its first large-scale solar farm, a 50MW project in the south-east province of Attapeu, and the government has already made plans to expand its solar sector further.

Is Laos a good country to invest in solar?

The government aims to increase the contribution of renewables to 11% by 2025, and while SolarSpace did not specify where its Laos-made modules would be shipped, the presence of a major manufacturing facility in the country is an important step in demonstrating the viability of Laos as a country capable of significant solar investment.

Does Laos have a country Factsheet?

Specifically for Laos, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Lao Solar Power Project Power Off-taker: Vietnam Electricity Group ("EVN") Location: Attapeu Province, Lao P.D.R Attapeu Surface Area: 850 Acres Commercial Operation Date: Q4, 2024 Value: \$240 million USD Financial Advisor: ACO Investment Group Legal Advisor: Freshfields (Singapore) Technical Advisor: Convalt Energy Lenders Legal Advisor: TBD Lenders ...
