At Elexo Energy, we believe in delivering excellence for electric mobility. Our team of experts is dedicated to providing cutting-edge solutions to help our clients achieve their goals and make a positive impact on the world. JOIN OUR TEAM. Help Us Redefine the Future of Electric Mobility.

Energy in Lebanon is characterized by a heavy reliance on imported fuels, which has led to significant challenges in ensuring a stable and sufficient supply of electricity. [1] The country's energy sector has been severely affected by a combination of internal political instability, external conflicts, and systemic corruption.

Elexo is accelerating India's clean energy transition by enabling superior environment friendly energy storage solutions. Elexo's lower cost and higher life battery packs helps in accelerating EV adoption ultimately leading to reduced dependence on fossil fuels.

Lebanon: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
