What does Genesis Energy Group do?

GENESIS ENERGY GROUP is committed to providing reliable, affordable, and environmental friendly energy solutions to replace expensive and dirty energy sources. From natural gas, solar, hydro projects and many more, we currently have over 100MW of power generated from our operational assets with over 3GW in our development pipeline.

Who is Genesis Energy?

At Genesis, we have been advising our clients on how to develop energy for more than 30 years; we have developed the technological understanding, drive, tools, and processes to help our clients on the journey to a sustainable future. From traditional markets to new and emerging ones, let us be your trusted advisor.

How many MW will Genesis have?

To service the houses and communities close by, talks are underway to increase capacity to a total of 334MW. Genesis has executed a Concession Agreement to construct, own and operate 360MW (natural gas) to be delivered in phases. The project is the first IPP project in the country and will displace the use of HFO and diesel.
