Who are the Lina energy executive team?

LiNa Energy Executive Team (7) Update this profile Name Title Board Seat Contact Info Gene Lewis Ph.D Chief Executive Officer & Director James Morrish Chief Financial Officer & Board Member Richard Dawson Ph.D Co-Founder, Chief Technology Officer & Board Member Mark Boland Co-Founder, Company Secretary & Board Member William Tope

Where is Lina energy located?

Electrical Equipment Corporate Office Unit 8,Sharpes Mill,White Cross Business Park South Road LancasterLA1 4XQ England,United Kingdom +44 01524 000000 LiNa Energy Timeline 2020202120222023

How does Lina energy storage work?

On discharge, the sodium is oxidised back to sodium ions and travels through the conductive backbone, recrystallising in the cathode. LiNa's energy storage systems take a radical approach to thermal management, providing customers with low-cost and high performance energy storage even in high ambient temperatures.

What is a Lina battery?

Whilst conventional batteries use a liquid electrolyte, LiNa's solid state ceramic electrolyte reduces ionic resistance and removes unproductive mass: unlocking a two-fold performance improvement in energy densities versus alternatives.

How do I view Lina energy's valuation and funding history?

LiNa Energy. TECHNOLOGY; APPLICATIONS; NEWS; TEAM; CAREERS; CONTACT; 11-06-2024. Update from the Lab - hot inside, cold outside - no problem. Back to news. This week we decided to test our latest thermal management system in freezing conditions.

In amongst the hustle, the team couldn't help but have a bit of fun by leaving a sneaky easter egg ? - each member of Team LiNa Energy has a named cell within the latest modules. DeepTech is hard but it's so important to have some fun and enjoy these moments!

At LiNa Energy, we know our IP and innovative capabilities are what set us apart in the competitive landscape. The future of batteries depends on sustained innovation and embracing leaders in manufacturing. The ...

LiNa systems run at an internal temperature of 250°C and for good reason. Our systems replace conventional liquid cooling and refrigeration with passive vacuum insulation and we've proven ...

The energy storage infrastructure specialist managed last week's successful test with a view to deploying the battery into the grid storage market in the coming years. Gene Lewis, CEO of LiNa Energy, commented: "Batteries are enabling the megatrends of decarbonisation of energy and electrification of transport. We have developed lithium and ...

LiNa Energy attends Industry Growth Forum in Denver Colorado. 29-04-2024. Our industry would benefit from a little more transparency. 11-04-2024. LiNa Energy attend Energy Tech Summit. 10-04-2024. LiNa's Battery energy storage system gets upgrade. 03-04-2024. LiNa-Scale project marks critical point in commercialisation journey.

Lina Energy LE | 1,870 followers on LinkedIn. Elevating Energy, Solar power solutions, Energy Storage Solutions, Green Roofs with Lina Energy | Lina Energy is a solar panel brand based in Bulgaria with regional offices in Jordan and Italy. The company was founded in 2016 and has since become a leading manufacturer of solar panels for residential, commercial, and utility ...

"Our steadfast commitment to energy transformation is a perfect match for a company like LiNa, whose vision and engineering competence are promoting and enabling the development of high-performance sodium-based energy storage solutions," confirms Gian Carlo Tronzano, Head of e-Mobility Global Competence Center.

Team LiNa Energy has been in Delhi installing our BESS pilot project with our strategic Indian partner. Back to news. It's been hot! A 47°C heatwave has kept us on our toes and served as a stark reminder of the challenges of operating in the Global South, but also the clear need for energy storage resilient enough to withstand these ...

Earlier this year Will Tope spoke on a panel at the Energy Tech Summit in Bilbao, Spain.. He was on a panel

LiNa Energy is a producer of solid-state sodium batteries. It provides battery testing, manufacturing, and process development services. The company caters to commercial, utility, transport, and industrial sectors. Type Private Status Active Founded 2017 HQ Lancaster, GB | [view all locations](#)

Importantly, the country is not retrofitting renewables, but expanding multiple grids as energy demands soar (both from a growing middle class, and in response to fatally high temperatures). Unlike in the UK, where energy storage primarily maintains frequency stability, we will need longer durations to shape a day's worth of solar against demand.

Having recently secured equity funding, LiNa Energy is delighted to announce it has also received funding from the Future Economy Investor Partnership (FEIP). This funding will support the LiNa-Scale project which will establish the company's first automated pilot-scale production facility. The project commenced on 1 February 2024 and will ...
