Are lithionics batteries made in USA?

But according to the FTC, Lithionics battery and battery module products incorporated Chinese-made lithium ion cells, and Lithionics battery management systems included significant imported components. That's why the FTC says the defendants' "Made in USA" claims were deceptive.

How safe is lithionics battery?

This naturally safe chemistry is paired with an internal shut down current technology inside each lithium cell, preventing any flame or explosion from thermal runaway events. Lithionics Battery recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems.

What is lithionics battery's NeverDie battery management system?

Lithionics Battery's NeverDie Battery Management System is a proprietary design featuring protective safety features, as well as status and state-of-charge monitoring. The NeverDie Battery Management System is standard on all Lithionics Battery systems to ensure your lithium batteries are operated within their rated specifications.

Did lithionics violate FTC rules?

The complaint, which names both Lithionics and Tartaglia, alleges violations of the Made in USA Rule and Section 5 of the FTC Act. In addition to a civil penalty of \$105,319.56 authorized under the new Rule, the proposed settlement includes injunctive provisions that will change how the defendants do business going forward.

How do I connect my lithionics battery?

Lithionics Battery recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems. The Plug & Play system features our parallel combiner box for parallel connections, or a series wire harness for series connections.

Can lithionics & Tartaglia be sued by the FTC?

The FTC has taken enforcement action against Lithionics and Tartaglia for making false 'Made in USA' claims. The proposed order settling the FTC's complaints requires Lithionics and Tartaglia to shut down these bogus claims.
