Who is Lithium Power?

Lithium Power, Inc. has been the industry leader in lithium battery technology for nearly two decades. We offer turn-key lithium battery pack solutions for OEMs/ODMs that meet each company's unique requirements of cost, performance, reliability, and safety.

What does Lithium Power do?

Lithium Power now seeks to expand its successful business model of custom made Smart Battery solutions to serve more industries within the OEM/ODM business world by offering the proprietary BMS solution alone in addition to custom made lithium battery packs.

Are there ordinary shares of Lithium Power International Limited?

There were no ordinary shares of Lithium Power International Limited issued on the exercise of share appreciation rights during the year ended 30 June 2021 and up to the date of this report.

Does Lithium Power have an intercompany loan?

However, as at the 30 June 2021, there exists a US dollar denominated intercompany loan granted by Lithium Power International Limited to its wholly owned subsidiary, Lithium Power Inversiones Chile S.p.A. The loan balance at 30 June 2021 is US\$42.1 million (30 June 2020: US\$37.2 million).

What is Lithium Power Lighting (LPL)?

Lithium Power Lighting (LPL) solutions provide reliable, portable, high-brightness outdoor lighting for mission-critical applications like night time road repair, accident sites or construction projects. It also works well for evening or overnight recreational activities.

Does Lithium Power comply with ASX Corporate Governance Principles & recommendations?

Lithium Power International Limited has adopted and has substantially complied with the ASX Corporate Governance Principles and Recommendations (Forth Edition) ('Recommendations') to the extent appropriate to the size and nature of its operations.

With improved contact between the battery and the Roomba®;, Lithium Power, Inc.'s replacement battery is now fully compatible with all Roomba®; 500, 600, 700 and 880 series. About Lithium Power, Inc. Lithium Power, Inc. specializes in Lithium technology and offers battery packs as turn-key solutions for specific markets.

BCI Form Factors A popular BCI form factor\* is the GC2/GC8. This lead acid battery product has been widely used for many decades in highly diversified industries such as golf carts and other electric vehicles. Lithium Power delivers the GC2/GC8 form factor lithium battery with significant technological breakthroughs that allow users to switch seamlessly. Highlights
