being developed by Brockwell Storage and Solar, formerly known as RNA Energy. In March 2024, Brockwell Survey work is due to commence in August and run through Energy reached an agreement to until winter 2024/25. acquire 100% of RNA Energy, inheriting its solar and battery storage pipeline with a commitment to further investment.

Brockwell Storage & Solar has submitted plans for a 5MW solar project at Suggenhall Farm, near Diss, Suffolk. The site is adjacent to an existing substation providing an ideal connection point to power people's homes with clean, renewable, and cheap electricity. The solar farm will include substantial hedgerow, tree planting, and wilder ...

With the backing of institutional capital, Brockwell Storage & Solar is on a mission to develop and build a portfolio of solar and storage projects to power the UK with cheap, clean, and reliable energy. Located in some of the sunniest areas of the UK, our 1.5GW pipeline of solar projects will begin construction in 2024.

Closing the financing for the two projects, which included a significant debt package, is one of the largest battery storage investments in the UK sector and reaffirms RNA's position as a leading energy storage and renewables platform with a deep, high quality, proprietary project pipeline.

Storage & Solar. Origination and development of BESS and solar projects across the UK. ... Brockwell's initial portfolio of projects was based in Scotland, in and around the coalfield areas, but has now been broadened to a UK nationwide ...
