Malta battery crate

Star Protection is communication technology that allows the Star Protection-equipped tool and battery to exchange data in real time and monitor conditions during use to protect against overloading, over-discharging and overheating. ...

A 1C battery c-rate means that it takes one hour for the battery to charge (or discharge) to capacity at a given current. A high C-rate results in a battery charging/discharging at higher power for a shorter period of time. Example: 10C means it will take 6 mins (1/10 hr) to reach capacity or for a fully charged 100 mAh battery to provide 100 ...

Makita 18-volt compact lithium-ion battery provide longer run time, 5X lower self-discharge for use any time, and 16 firm-holding contact terminals for constant high power 30-minute charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature Accepts Makita 18-volt LXT lithium ...
