The Pielstiks are from 1982, when the first MEC power plant was established. Before the Pielstiks, known as engines one and two, are decommissioned and removed from the plant, the container generators will be installed and in operation so there is no disruption in power services to Majuro, said Chong Gum.

Welcome To Marshalls Energy Company. The Marshalls Energy Company is a semi-autonomous utility company responsible for the generation, distribution and sale of electricity on a number of islands and atolls within the Republic of the ...

Marshall Islands Correspondent MAJURO, Marshall Islands -- The ongoing decline over the past year in power reliability in Majuro, the capital of the Marshall Islands, reached what seemed to be the peak of utility dysfunction with multiple, unexpected power outages in January -- including some from 30 to more than 60 hours in duration.

Power outages can result from any natural disaster, an accident with the power lines, or a myriad of other unknown reasons. Depending on where you live, a simple wind can cause your power to be knocked out. In 2017 alone, 36.7 million Americans were affected by 3526 power outages. The average outage lasted 81 minutes,

MAJURO DIESEL POWER STATION 1. The Majuro diesel power station 1 was commissioned in 1984. It is the smaller of MEC's two power stations servicing Majuro. A total of five diesel generators are installed in the station, comprising of four original Peilstik generators and in 1992 a single Caterpillar generator was added. Technical Data:

Back up generators to power fresh and salt water service in Majuro are soon to be installed so that service can continue despite ongoing power outages, the general manager of the water company says. Majuro Water and Sewer Company GM Damian Capelle got out in front of the problem last year by ordering back up generators and additional water ...

He added there were times when the ships were busy and unable to deliver to islands like Ebeye, Wotje, and Jaluit. The only thing MEC could do at that point was to ask them to ration power. Before the surge in fuel prices, MEC had to spend 600,000 a year to deliver fuel to these three islands.

The Marshall Islands government is injecting \$10 million to the Marshalls Energy Company this fiscal year, with a planned additional \$7 million next fiscal year. The purpose of the funding is to support MEC's need to purchase new engines for the power plant, according to Finance Minister David Paul.
