"The Republic of the Marshall Islands (RMI) submitted its second NDC in 2018 at COP 24 in Katowice, making it the first country in the world to do so. The revised NDC set binding targets of reducing greenhouse gas emissions by 32 percent below 2010 levels in or before 2025 and by 45 percent before 2030. Yes, our NDCs are very ambitious.

The Republic of the Marshall Islands is calling for ambitious action by all countries to reduce greenhouse gas emissions. We are leading the way by committing to net zero emissions by 2050, with significant milestones along the way.

AMSTERDAM, April 4th, 2023 - Greener Power Solutions (Greener), European leader in clean and smart solutions for the temporary energy market, is expanding to the United Kingdom. The Dutch scale-up will collaborate with rental partners to replace their diesel generators with batteries and will also focus on emerging markets such as the EV charging market and the energy grid.
