Who is Svevind Energy Group?

SVEVIND Energy Group announces today that it has completed a transaction with the leading Norwegian utility Statkraft. Our Swedish subsidiary SVEVIND Nordic AB, the successor to SVEVIND AB, is now officially part of Statkraft. The... The first week of October 2022 marked an important milestone in the history of Svevind's "Project Sandbacka".

Why did Svevind energy get a partnership with Semurg invest?

One core element for this is the signed cooperation agreement with Semurg Invest, the owner and operator of the largest terminal facility of the port of Kuryk on the Caspian Sea. Another milestone was reached just before year ended as SVEVIND Energy received confirmation that Germany is backing our project with an so called investment guarantee.

How does Svevind AB manage a wind farm?

Svevind AB establishes a subsidiary for the project, which is then responsible for project planning. Construction and ownership may also be through Svevind AB's subsidiaries. Once the wind farm has been approved, Svevind AB or the relevant subsidiary may sell all or part of the project, or retain it for its own construction and operation.

Why did Svevind energy buy Markbygden net?

In order to drive this process forward as effectively as possible, SVEVIND Energy divested the grid company „Markbygden Net" operating Sweden's most powerful substation, the 1700 megawatt substation Råbacken and related grid infrastructure to the Nordic grid operator Ellevio.

How does Svevind design a wind farm?

o Svevind identifies suitable locations with regard to favourable wind conditions, grid connection capacities, the absence of conflicting interests and rural development opportunities. The design of the wind farm is then planned and the documentation produced for the permit application.

Why should Svevind energy partner with Fichtner?

As a project for the production of green hydrogen, it is of course of the utmost importance to ensure that the plans are compatible with the protection of the ecology and the local population. With FICHTNER, SVEVIND Energy have engaged with an experienced company with its headquarter in Stuttgart/Germany at our side for this responsible task.

During the meeting with the management of Svevind Energy Group, the parties addressed matters related to the preparatory phases of a "green" hydrogen production project in the Mangistau region. President was briefed on the initiation of preliminary design and survey work (Pre-FEED) as part of the Investment Agreement, signed during the visit of ...
