Solar Panel is a building that can convert light into power. The more light it receives, the more power it generates. 380 W is the maximum power it can generate, and it has to have a total Lux coverage of 350 000 (7 tiles * 50 000 on each tile). Covering a tile will cause less power to generate as the power generated is based on total Lux received. Requires more Lux per tile to ...
