

Media energy storage interviews

Which energy storage projects are using lithium-ion Bess technology?

Just over 70% of the successful projects in the first window of the UK's long-duration energy storage (LDES) scheme are using lithium-ion BESS technology. RWE Renewables Australia has successfully registered Australia's first 8-hour duration battery energy storage system (BESS) with the Australian Energy Market Operator (AEMO).

Can social media help understand energy and environmental issues?

There are burgeoning studies paying attention to social media (e.g., Facebook, and Twitter) for understanding energy and environmental issues. Our study here focuses on a traditional media source - namely, newspapers. The total number of articles published between 2017 and 2019 in People's Daily is 78,701 and in China Daily is 51,596.

How can Media Analysis Improve social acceptance and public support of energy innovations?

By using media analyses and understanding media discourse, these stakeholders can better participate in society-wide conversations and thus advance social acceptance and public support of energy innovations in future developments.

Is National ES media coverage based on socio-political evaluation of energy deployment (speed)?

We conduct content analysis based on the Socio-Political Evaluation of Energy Deployment (SPEED) framework to examine the framing and frequencies of national ES media coverage between 2017 and 2019 in the Chinese-language People's Daily and English-language China Daily, both of which are widely circulated mainstream Chinese newspapers.
