Missing battery but good service corrected issue. Initial delivery had one battery missing, but good communication from Macsell quickly sorted the issue and the missing battery was shipped quickly. 5 stars would have been given if I didnt have to follow up with the courier and merchant to correct their mistake and figure out who was at fault. Great service otherwise and no regrets with my ...

Macsell gave us top class service... Macsell gave us a top class buying experience with the Sun brand 10.2KW hybrid solar charger we ordered on 23 September. It was delivered undamaged to Port Elizabeth on 3 October. The contents were exactly as described on their website, and installed with no problems at all. Highly recommend.

A hybrid solar inverter is a device that combines the functionalities of both a solar inverter and a battery inverter in a single unit. It is designed to convert the direct current (DC) power generated by solar panels into alternating current (AC) power that can be used by household appliances and also charge batteries for later
