Does Nauru have an energy road map?

Currently Nauru is working on an Energy Road Map, including action plans for the development of renewable energy and energy efficiency sufficient to significantly lower imports of diesel fuel for electricity generation.

What does imported energy mean for Nauru?

Imported energy for Nauru means fossil fuel imports. Unambiguous records of the quantity of fuel imports, their timing and the specific type of fuel imported are vital to the determination of the Nauru energy balance.

What is Nauru energy policy framework (Nepf)?

The Nauru Energy Policy Framework (NEPF) was endorsed in 2009 and layout broad aims and strategies for the energy sector, including power, renewable and energy efficiency. The NUC currently provides all electricity services to Nauru except for RPC and the main processing plant of RONPHOS.

Is Nauru Utilities Corporation a corporation?

The NUC currently provides all electricity services to Nauru except for RPC and the main processing plant of RONPHOS. The status of the utility as a corporation was formalised with the passing of the Nauru Utilities Corporation (NUC) Act 2011 which states the legal obligations of the utility.

Does Nauru use diesel fuel?

Diesel fuel and petrol are stored and distributed by NUC to all users except RONPHOS who maintains a separate diesel fuel storage facility and often purchases and imports diesel for their industrial use. Jet fuel is used only by the national airline, 9 From circa 2005 to 2009 Nauru experienced scheduled rolling black-outs.

Why does Nauru export phosphate?

been based on phosphate mining for many decades and the export of phosphate has been the island's only income, part from some overseas investment. Phosphate export had afforded a high standard of living and high buying power for the people of Nauru for decades. W
