

Nauru hakuna solar

Who will implement solar project in Nauru?

The executing agency will be the Department of Finance and Sustainable Development. The implementing agency for solar component of project will be the Nauru Utilities Corporation (NUC). NUC will establish a project management unit within their existing organisational structure to implement the project.

Does Nauru need solar power?

“Now Nauru's power generation mainly relies on diesel. That's expensive and would pollute the environment,” said John Scott, who has been working for the project since 2022. “There is a lot of sunshine here and it's good for solar power. I believe electricity supply here will be much better when the project is completed,” Scott told Xinhua.

Who owns Nauru electricity?

The Nauru electrical network is owned and operated by Nauru Utilities Corporation (NUC), a state-owned enterprise, established under the Nauru Utilities Corporation Act of 2011. NUC is responsible for energy generation and energy distribution, and water supply. Nauru predominantly sources its energy through diesel power generators.

How many kV is a 1000 KW PV installation in Nauru?

A 1,000 kW PV installation is under construction. The electrical network comprises 11kV, 3.3KV and LV overhead lines. Asian Development Bank (ADB) provided Government of Nauru (GoN) a transactional technical assistance TRTA to prepare a Nauru power expansion plan.

What is a Nauru power expansion plan?

The electrical network comprises 11kV, 3.3KV and LV overhead lines. Asian Development Bank (ADB) provided Government of Nauru (GoN) a transactional technical assistance TRTA to prepare a Nauru power expansion plan. The plan identified that a PV array and battery energy storage system should be constructed.

Is Nauru Utilities Corporation a good company?

In particular, Nauru Utilities Corporation has a well-functioning procurement unit. They have participated in ADB funded Tenders for Power Generation Units, and regularly invite goods and works bids through Tenderlink.
