

North Korea esco company

When will Esco Korea start operations?

The acquisition marks a significant milestone, and Esco Korea is set to begin operations on 1 October 2024. This strategic move aims to strengthen Esco Lifesciences Group's distribution capabilities by establishing direct sales and service teams to meet the demands of the growing biopharma, research, and clinical markets in South Korea.

What is Korea Association of ESCO (kaesco)?

The Korea Association of ESCO (KAESCO) was established in 1999. KAESCO is Contributing to the economic growth of a nation, responding to Climate change convention, and facilitating energy saving markets by pursuing mutual interests with ESCO through cooperation and corresponding to the ESCO business changes for sustainable development.

Why did Esco acquire a distributor in South Korea?

Acquiring Esco's distributor in South Korea is set to improve our outreach by establishing direct sales and service teams to serve the expanding market in the region. Digital transformation initiatives will enhance efficiency and productivity following the asset transfers.
