Panel solar on grid Svalbard and Jan Mayen

*How we worked out your Solar Savings. The estimated savings you can make with our Solar Savings tariff are based on a 2-3 bedroom home with a medium electricity demand of 2,700kWh (Ofgem), installing a 10 panel system with a 3.68kW inverter and a 10.5kw battery via a Good Energy package. It is estimated that you will export 20-25% of the power you generate.
