

Paraguay kerr smart energy

Who authored the report 'decarbonization pathways for Paraguay's energy sector'?

CCSI, the Quadracci Sustainable Engineering Lab at Columbia University, and the Centro de Recursos Naturales, Energía y Desarrollo (CRECE) authored the report "Decarbonization Pathways for Paraguay's Energy Sector," published by CCSI in November 2021.

Does Paraguay need zero-emissions decarbonization?

Source: Prepared by the authors using LEAP. To highlight the policies necessary for zero-emissions decarbonization of energy-use sectors in Paraguay, this report introduces three scenarios for Paraguay's final energy demand matrix from 2018 to 2030, 2040, and 2050 based on the freely available LEAP software and available base-line data as of 2018.

Is Paraguay based on hydropower?

Paraguay is one of the few nations in the world in which the electrical system is based almost exclusively, on the generation of electrical energy from a renewable and non-polluting source: hydropower.

What is the main source of electricity in Paraguay?

Hydropower is the main source of Paraguay's electricity generation and one of its main exports.

Should Paraguay adopt a back-casting approach?

Finally, the Government of Paraguay should adopt a back-casting approach, starting from the end goal--a zero-carbon energy system as of 2050 at the latest--and work backwards to understand what needs to be done in the short and mid-term. This approach does not imply that policies will stay unchanged and fixed for decades.
