With our power co, I was on the residential rate before. When I got solar I was able to make it make sense to switch to the EV charging rate plan. It's a time of use plan where power is very cheap at night and more expensive during the day. Since the solar produces during the day, it basically means I only pay for power at the reduced rate.

With affordable solar panel loans available, your solar panel cost can become more manageable. Effective Home offers easy payment plans for solar panels and solar batteries over 15 years* with a small deposit. Here are some solar panel finance examples to give you an idea of solar panels cost and potential repayments on a new solar system.
