Georgia Power is the largest subsidiary of Southern Company, one of the nation's largest generators of electricity. The company is an investor-owned, tax-paying utility with rates well below the national average. Georgia Power serves 2.3 million customers in all but four of Georgia's 159 counties.

Georgia Power recently acquired a series of solar projects of up to 1 megawatt (MW) in Murray County, Ga., co-developed by United Renewable Energy LLC and Mack Creek Energy LLC. Georgia Power will sell the output from the facility to Dalton Utilities.

The 12,000 Q CELLS panels that will be produced every day in Georgia by the end of 2019 will go a long way towards satisfying the U.S. solar industry's growing demand. Remarks from Governor Kemp and Q CELLS CEO Hee Cheul (Charles) Kim follow: "Dalton and northwest Georgia are now a hub for the manufacturing of clean, renewable energy sources.

Recently lauded for investing \$10 million and creating 200 jobs over five years in Elberton, Georgia, Hailo LLC is a success story made real. We caught up with CEO Steffen Kosir to find out a little more about the Germany-based organisation that produces climbing and service lift systems for turbines. PES: What is your on-the-ground...
