

Does Fiji have a nuclear power station?

Fiji neither has any fossil fuel energy resources nor any nuclear power stations. It imports all its fuel requirements for transportation and electricity. Renewable energy resources are mainly used for electric power generation. Due to geographical location of Fiji, it has good renewable energy resources such as solar, wind, biomass and hydro.

Does Fiji have a good energy supply?

Like for many other SIDS Fiji's geographical situation means that affordable and accessible energy supply is a challenge. The Island state depends heavily on imported fossil fuel to meet its energy needs, nevertheless, renewable energy sources, mainly hydro, account for 55% of the country's total energy production.

How much electricity does Fiji have?

In 2015, the country's total installed electricity generation capacity was 296 megawatts, of which the Fiji National Electricity Authority operated 94%. Of this capacity, 254 megawatts was grid connected. Like for many other SIDS Fiji's geographical situation means that affordable and accessible energy supply is a challenge.

What is Fiji's national energy policy 2023-2030?

Fiji's National Energy Policy 2023-2030 is the blueprint towards a highly sustainable, inclusive, reliable, and affordable energy services sector by the close of the decade. It sets a strong policy foundation for the transformational investments that are urgently needed to revolutionise our energy sector for the better.

What is the energy situation in Fiji?

It is a small island developing state (SIDS) that is heavily dependent on imported fossil fuel for its energy needs. The paper attempts to determine the past and current energy situation in Fiji, challenges faced and strategizes to overcome these challenges. In 2014, Fiji generated 859 GWh of grid electricity from 259.8 MW of power plants.

Does Fiji have a national energy policy?

Using external aid (German Technical Cooperation (GIZ) - Deutsche Gesellschaft für Internationale Zusammenarbeit and United Nations Development Programme (UNDP)), Fiji has been able to successfully review National Energy Policy for Fiji which acts as a guideline for the goals and objects to achieve by 2030.
