In most cases, battery storage is better than a generator due to its stable current output, but a high-quality standby generator may be better than a lower-quality battery. The disadvantages of a generator for home power backup are that they are noisy, have high fuel costs, and can have poor output current quality, which will cause damage to ...

6x 1800-Watt AC outlets and 1260Wh capacity, the large inverter load enables it to power most home appliances and heavy-duty DIY tools under 1800-Watt with 1260Wh capacity ; ... A capable home generator could be a savvy investment if you regularly need access to back-up energy. The best will ensure your home has power during outages, too. In our guide, we explain the different types of generators, including petrol, diesel and liquid petroleum gas (LPG). Plus, we give advice on how to pick the best option based on ...

The phrases "battery generator" and "solar generator" are pure marketing -- effective marketing, but still out of touch with reality. I just need enough power to keep my fridge and freezer running as I have a lot of frozen meat stored. I would start by making sure your freezer is full -- if there is empty space, fill it with bottles of water.
