

# Portugal home assistant storage

Not running Proxmox myself, but my installation is running on ESXi. I expanded my storage simply by shutting down the virtual machine, increased the size of the virtual disk and then started it back up, Home ...

Why does the disk usage only total ~16GB (~50%), but HA System>Storage indicates I'm using 90%? Because you SSH to the Home Assistant Container, not the OS. To SSH to the host, you need port 22222. [developers.home-assistant.io](https://developers.home-assistant.io)

VictoriaMetrics Add-on for Home Assistant OS is the perfect solution for long term data storage of your smart home sensor data and visualization with Grafana.

Hi All, I am running an Ampere.Storage PRO Inverter, which is definitely a SAJ HS2 Series with some minor changes. After long research I found the Modbus Datamodel and implemented it in telegraf which streams the data into InfluxDB. To visualize the data, I am currently using a Grafana dashboard. In general, it works pretty good so far. There are a few ...

Home Assistant Green is the easiest and most privacy-focused way to automate your home. It offers an effortless setup and allows you to control all the smart devices with just one system, where all the data is stored locally by default. This device benefits from the thriving Home Assistant ecosystem and it will be improved every month by open source.

Dimplex have launched a new range of their q rad range of electric heaters. These new ones have a wifi module and can be controlled through a hub which you need to buy seperately. Has anyone looked at these to integrate with home assistatn as we are looking at buying them for our all electric house. I want a centrally controlled way to maintain the home ...

If the above steps to free up space did not help, you need to expand your storage. Expanding storage: Home Assistant Operating System . When you are running Home Assistant Operating System Home Assistant OS, the Home Assistant Operating System, is an embedded, minimalistic, operating system designed to run the Home Assistant ecosystem. It is ...

IPMA Portugal Integration. Feature Requests. karma (karmah) June 1, 2024, 6:47pm 1. Hello everybody, I hope I'm in the right place to ask the following questions: ... Is there any way to know the percentage of ...

# Portugal home assistant storage

I propose 2 methods, both compatible with Home Assistant. The first, using Tasmota and MQTT, through a ESP8266, connected to the smart meter HAN port. The ...

Home Assistant is open source home automation that puts local control and privacy first. Powered by a worldwide community of tinkerers and DIY enthusiasts. ... Storage full . I have 128GB of storage on my Home Assistant Blue and it is currently at 99%. I cannot update/restart or install addons anymore, but I also can't find out where this ...

Hello all, I am using a tiny PC which is a 8GB RAM, has a 128GB SSD and 500GB HDD build-in. My Home-Assistant OS is installed inside the 128GB SSD. I wanted to extend or expand the 500GB HDD to the primary ...

Oh the wonderful file system of home assistant :D Basically you have 3 places that may take room: recorder database [core=ssh ~]\$ du -ah /config/home-assistant\_v2.db. backups (note that some may not be visible on UI, dont ask why) - check with

Hey everyone, is 16 GB of storage enough ? Developers recommend a class 10 sd card with 32 GB of storage but I only have a old 16GB sd card from my phone . Does anyone run out of storage with 16Gb? Pls help me out guys.

Hello all, I am using a tiny PC which is a 8GB RAM, has a 128GB SSD and 500GB HDD build-in. My Home-Assistant OS is installed inside the 128GB SSD. I wanted to extend or expand the 500GB HDD to the primary storage. I am not 100% sure, if I could expand the primary storage to have 128GB + 500GB or I need to mount the storage using mount ...

An easy-to-use YAML-based integration for several Ampere.Storage.Pro inverters for Home Assistant. There are two ways to read the data from an Ampere.Storage.Pro. Both options are explained here. Variant 1: Via Modbus Variant 2: Via Rest (the Ampere.IQ Box is required here) Variant 3: Custom ...

Hello, Every few hours I get "Network storage device failed". The network storage is attached to Raspberry Pi (OMV) and is normally accessible from local computers when HA comes up with this message. After I hit "reload" the message disappears. Anyone experienced something similar?

Bem-vindo &#224; CPHA, a Comunidade de Home Assistant para utilizadores de l&#237;ngua Portuguesa! Aqui poder&#225;s encontrar informa&#231;&#245;es e recursos exclusivamente em Portugu&#234;s para um dos sistemas de automa&#231;&#227;o ...

Until the Varta Storage integration (Add vartastorage integration by Vip0r &#183; Pull Request #63736 &#183; home-assistant/core &#183; GitHub) is accepted, you can access the Varta Storage via Modbus. The following snippets are for the Varta pulse neo. # Modbus Varta pulse neo modbus: - name: &quot;mb\_varta&quot; type: tcp host: 192.168.40.4 # replace with your ip of the your ...

Hi All, I am running an Ampere.Storage PRO Inverter, which is definitely a SAJ HS2 Series with some minor changes. After long research I found the Modbus Datamodel and implemented it in telegraf which streams the data ...

I went through a guide to install and configure my Home assistant on a Virtual machine on my Synology NAS, and all is working perfectly, but I wanted to have a look and ...

Navigate to HACS in Home Assistant: Go to Home Assistant > HACS > Integrations. Click on Explore & Add Integrations and search for Frigate. After installation, restart Home Assistant to apply the changes. Configure the integration: Go to Home Assistant > Settings > Devices & Services > Add Integration and select Frigate.

I propose 2 methods, both compatible with Home Assistant. The first, using Tasmota and MQTT, through a ESP8266, connected to the smart meter HAN port. The second, using the Modbus HA integration, through a RS485 to USB adapter, connected again to the said HAN port. Both works, but with different entities available on each. The current ones available ...

With 2023.6 now out with NAS support, I felt it was the perfect time to write the Ultimate Home Assistant Backup guide, to compliment the Ultimate Restore Guide I wrote a couple of months ago. This leverages the 3-2-1 strategy. Home Assistant: Ultimate Backup Guide Home Assistant: Ultimate Restore Guide Both use the awesome @sabeechen Google Drive Backup add-on in ...

Hi, My Home Assistant storage is regularly full, so I have to delete some backups to continue using it. My first thought was that frigate was using most of the space, but after deleting all of the clips, snapshots and recordings my storage is still 90% full. According to frigate the "recording & snapshots" location is using 103GB+.
