

Price sinking solar Israel

Are solar panels profitable in Israel?

While the system can bring a double-digit return on investment for some, for the hundreds of thousands who own apartments in shared buildings, it is not yet profitable. Over the past few years, it has become more and more popular for homeowners in Israel to set up solar panels on their roofs or in their yards -- and for good reason.

How to set up solar panels in Israel?

When setting up solar panels, the first step is contacting a company that installs solar systems. Today in Israel, there are many companies of this type in the growing market, and it is worthwhile to conduct thorough market research and get recommendations from others who have already been through the process.

What is Israel's Investment model for solar energy?

The investment model for solar energy has evolved over the last decade, as Israel has put more of a focus on increasing the rate of green electricity generated from renewable energy sources, most notably - sunlight.

Can a solar power plant be installed on a roof in Israel?

In order to meet Israel's goal of increasing the production rate of green energy to 30% within a decade, the State is promoting legislation that allows owners of private homes and commercial buildings to set up a solar power plant on the roof.

2018; The price of solar panels has come down enormously in recent years and the Energy Ministry has pushed through regulatory changes that allow, for example, the placing of solar panels on buildings ...
