Does Puerto Rico have a solar program?

To further assist Puerto Rico's energy resilience and clean energy goals, DOE today announced that on February 22, 2024, residents can apply for DOE's Programa Acceso Solar (Solar Access Program) -- a program designed to connect up to 30,000 low-income households with residential rooftop solar and battery storage systems with zero upfront costs.

Does Puerto Rico need new power generation infrastructure?

Puerto Rico must increase new power generation infrastructure significantly--on the scale of hundreds of megawatts--to stabilize the grid and alleviate current generation shortfalls, including rapid deployment of utility-scale and distributed renewable resources and significant amounts of storage.

What is the Puerto Rico energy Resilience Fund?

This program is a consumer-facing application phase of the first round of funding from the Puerto Rico Energy Resilience Fund, a \$1 billion DOE program focused on improving the resilience of Puerto Rico's electric grid with an emphasis on the region's most vulnerable and disadvantaged households and communities.

How do low-income families get solar in Puerto Rico?

Today, low-income families across Puerto Rico can go to [energy.gov/solarPR](https://energy.gov/solarPR) to check their eligibility, prepare required documentation, and identify their local Solar Ambassador. Solar Ambassadors consist of 16 local organizations selected by DOE to conduct outreach in targeted communities and to process applications to the Programa Acceso Solar.

Puerto Rico's Energy Transition. Puerto Rico committed to meeting its electricity needs with 100% renewable energy by 2050, as established in Puerto Rico Energy Public Policy Act (Act 17). To meet these goals and support ...

On February 21, 2023, the Grid Deployment Office launched the Puerto Rico Energy Resilience Fund (PR-ERF) to support Puerto Rico's grid resilience efforts and achieve the goal for the commonwealth to meet 100% of its electricity needs with renewable energy by 2050. After recent natural disasters and decades of underinvestment in the electric grid, this fund is ...

On July 18, 2024, DOE's Loan Programs Office (LPO) announced a conditional commitment for a loan guarantee of up to \$861.3 million to Clean Flexible Energy, LLC. The loan guarantee will finance the construction of two solar photovoltaic (PV) farms equipped with battery storage and two standalone battery energy storage systems (BESS) in Puerto Rico.

Recognizing the likelihood for severe damage even before the hurricane made landfall, APR Energy contacted federal and Puerto Rican authorities in mid-September to make them aware of the company's readiness if emergency power was required. Weeks after Hurricane Maria, more than 90% of Puerto Rico residents still lacked electricity.

The project will generate power directly to Puerto Rico's grid and provide energy storage benefits necessary for Puerto Rico's goal of achieving 100% clean energy resources by 2050. **ECONOMIC IMPACT.** This project will support approximately 750 construction jobs and more than 50 full-time jobs once fully operational.
