

Renewable energy firm French Guiana

In French Guiana, a community of indigenous Kali'na began actively resisting plans for the world's first baseload renewable power plant using hydrogen technology - the CEOG project - in ...

If RECs are accounted for as output, the reporting entity should generally allocate costs of production to the RECs, unless the RECs are part of the lease of the facility (see UP 7.5 for discussion of RECs sold as part of a facility lease). That cost becomes the carrying value for the REC when it is used or sold.

French hydrogen firm HDF Energy has started construction on a multi-MW production site in French Guiana that also will offer 128 MWh in green H2 storage. The CEOG Renewable Power...

French renewable power producer Voltalia SA (EPA:VLTSA) said today it has brought online a 5.1-MW biomass plant in French Guiana. The so-called Cacao facility, located in the commune of Roura, was designed and ...

KUWAIT AIMS FOR RENEWABLE ENERGY EXPANSION. The oil-rich emirate is the latest in the region to embrace renewable energy. The Kuwait Oil Company, a subsidiary of the state-owned Kuwait Petroleum Corp, has outlined an ambitious plan to deploy 17 GW of renewable energy and 25 GW of green hydrogen capacity by 2050.

The \$200 million French Guiana CEOG will combine a solar park, long-term hydrogen and short-term battery storage. HDF started the project with financial support from a 25-year power purchase ...

The European Investment Bank (EIB) has extended EUR 25 million (USD 29.3m) in debt to the company behind a project calling for the construction of a baseload renewable complex in French Guiana, combining solar, hydrogen, battery storage and fuel cells.

The CEOG project will utilise HDF Energy's so-called Renewable electricity plant concept, which includes a 55-MW solar farm with a renewable energy storage solution providing 140 MWh, based on hydrogen and backed by ...
