Venezuela has faced years of power instability since about 2009, including two major blackouts in 2013 and a power and water crisis in 2016. At times the blackouts were caused in part by weather conditions like El Ni&#241;o, but overall they have established a pattern of poor planning, mismanagement, and lack of investment on the part of the ...

Guri is a 10,700MW hydro power project. It is planned on Caroni river/basin in Bolivar, Venezuela. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the partially active stage. It will be developed in multiple phases.
