What is the economy of Samoa like?

The economy of Samoa is dependent on agricultural exports, development aid and private financing from overseas. The country is vulnerable to devastating storms, earthquakes, tsunamis. Agriculture employs two-thirds of the labor force, and furnishes 9% of exports, featuring coconut cream, coconut oil and copra.

How much money does Samoa receive a year?

Their direct remittances have amounted to \$12.1 million per year recently, and they account for more than half of all tourist visits. In addition to the expatriate community, Samoa also receives roughly \$28 million annually in official development assistance from sources led by China, Japan, Australia, and New Zealand.

Does Samoa have a fisheries industry?

Fishing has had some success in Samoan waters, but the biggest fisheries industry (headed by Van Camp and StarKist) has been based in American Samoa. StarKist Management announced that it was going ahead with setting up at Asau a blast-freezer project to be operational by 2002.

What are Samoa's exports?

Samoa's exports are still concentrated in coconut products (\$2.36 million worth of copra, copra meal, coconut oil, and coconut cream) and fish (\$1.51 million) but are at least somewhat more diverse than before. [citation needed]

Which countries trade with Samoa?

New Zealand is Samoa's principal trading partner, typically providing between 35% and 40% of imports and purchasing 45%-50% of exports. Australia, American Samoa, the United States, and Fiji are also important trading partners. Its main imports are food and beverages, industrial supplies, and fuels.

What does the Samoan government want?

The Samoan Government has called for [when?] deregulation of the financial sector, encouragement of investment, and continued fiscal discipline. Observers point to the flexibility of the labor market as a basic strength factor for future economic advances. [citation needed] Unloading a lighter at Apia Wharf, around 1975-1985.

Asset Management (AM): Effective asset management is a shift in focus toward the long-term life cycle of an asset and its sustained performance, rather than the short-term, day-to-day ...

# Samoa asset for industrial

SAMOA's range of hand-held equipment is engineered to outperform for years in demanding environments such as general industry and construction. It includes a reliable and durable battery, pneumatic, lever action and pistol-style grease guns for industrial lubrication applications, as well as other hand-operated pumps to handle oil or other lubricants.

SAMOA Diaphragm Pumps are engineered to thrive in harsh environments, providing rugged and reliable fluid transfer solutions. Our PIVOT Series pumps feature an innovative Air Distribution System for maximum air efficiency and minimal wear, while significantly reducing pump vibrations and fluid pulsations. The DirectFlo Series pumps offer reduced air consumption and increased ...

SAMOA Industrial is a leading European manufacturer of Pumps & Systems for complex fluids and one of the most important worldwide. Our products are mainly used for lubrication, fluid processing (transferring, dispensing, and dosing), coatings & paints treatments, appliance of high viscosity fluids, and horizontal signaling.

Target product type: Directflo Series Diaphragm Pumps: Pump size: 1/2" Pressure ratio: 1:1: Maximum free flow delivery: 50 l/min (14 gal/min) Air pressure operating range

One of our strengths is the distribution network that we have been weaving over the years and that is continuously expanding and growing. This strength comes from our international, multicultural and multidisciplinary team; which makes possible not only the quality in the manufacturing of products but the excellence in customer service.
