NPP Power Wall/Floor-Mount lithium battery is engineered with utmost reliability, utilizing Grade A cells to ensure extended cycle life and unwavering performance. These battery packs feature an advanced Battery Management System (BMS) that not only elevates system efficiency but also extends the battery's lifespan while prioritizing safety.

Hunan) and one in Ho Chi Minh City, Vietnam. NPP has sales offices all over mainland China and overseas sales subsidiaries in North America, Europe, and Africa. It has built a truly global manufacturing, distribution, marketing and after-sales service network. NPP products are manufactured based on strong technical expertise, coupled with advanced

NPP focuses on R& D, manufacturing and sales of traditional and new energy products, including valve-regulated lead-acid batteries, lithium batteries, and solar panels. At present, the ...

In the conditions of the stipulated design (such as temperature, discharge rate, and final voltage, etc.), the rated capacity means the battery should be able to release the lowest capacity, the unit is ampere-hour, expressed as a symbol of C. Capacity is strongly influenced by the discharge rate, so we often show the discharge rate by Arabic numerals at the lower right corner of the ...

NPP Power, a trusted VRLA battery manufacturer with over 20 years of experience in the industry, offers you the possibility to have your battery manufactured under your own brand. You can therefore fully customize your product in order to comply with market requirements.
