

Saudi Arabia sigora dot com

Who is Sigora?

Sigora is a provider of utility-management systems engineered for frontier markets. For established urban grid utilities and rural micro-grid developers, Sigora's platform transforms energy access into bankable business. Leveraging specialized hardware, web-managed software, and simple payment solutions, the company's platform streamlines

Can Sigora help expand energy access?

Sigora stands to tip the balance in expanding energy access by making micro-grids an investable proposition. Conventional metering infrastructure provides zero visibility into grid operations while cash-based and post-pay systems leave utilities susceptible to payment default, billing errors, and outright fraud.

How does Sigora work?

By re-imagining what a meter can do, Sigora makes it possible for utilities large and small to build bankable grids in unconnected and underserved communities. Sigora stands to tip the balance in expanding energy access by making micro-grids an investable proposition.

Where is Sigora located?

Sigora is located in Chicago, Illinois, United States. Who invested in Sigora? Sigora has 2 investors including Evergreen Climate Innovations and Ground Squirrel Ventures. How much funding has Sigora raised to date?

What is a Sigora meter?

Sigora meters allow utilities the option to leverage existing assets and implement a captive portal for internet access that can provide a new, high-margin stream of revenue. Hardware and software engineered for affordability and widespread adoption reduce labor-intensive O&M.

How many Sigora meters are deployed on the Môle-Saint-Nicolas micro-grid?

1,200 Sigora meters are deployed on the Môle-Saint-Nicolas micro-grid operated by Sigora Haiti, which was awarded " Best Micro-grid Project " at the CREF awards, which recognize the most innovative and financially compelling renewable energy projects in the region.

The Ministry of Transport and Logistics Services studies, designs, implements and maintains road works with participating in transport system work coordination.
