

# Senec battery Malaysia

What is a Senec battery?

The battery stores your excess power to be used when your solar panels are no longer producing sufficient energy, such as at night. The SENEK battery contains a hybrid inverter and battery, making it an intelligent all-in-one system. The SENEK battery has several benefits including a 98% efficiency rating. The V3 battery has a 10-year warranty.

Do I need a Senec solar battery?

Whether you already have an existing PV System or are yet to install one, a SENEK Solar Battery can enable you to use solar power 24 hours a day. SENEK is compatible with all systems, regardless of the manufacturer. A new solar system is best optimised with power storage, or if you already have solar then it's easy to retrofit.

What is Senec & how does it work?

SENEK is a battery system that allows you to store excess solar energy during the day and use it at night. The battery contains a built-in hybrid inverter, which is capable of managing the electricity output of solar panels and charging a battery system at the same time.

How much does a Senec solar battery cost in Australia?

The price of a SENEK solar battery in Australia varies depending on the size and your PV system requirement. The Compare Solar Quotes website indicates that a unit of this brand costs between \$3,000 and \$8,000, inclusive of the incentives and solar rebates from the Australian government.

Do Senec batteries have warranties?

According to their website they will still honour warranties for any Australian customer who purchased a SENEK battery. SENEK was formed in Germany in 2009 with a focus on battery energy storage. They furthered development in this field from 2011 for use in PV solar systems, wind power and commercial use.

How can a Senec solar battery storage system help you?

By simply adding a SENEK Solar Battery Storage System to your solar panels you can become up to 90% Power Self-Sufficient. Whether you already have an existing PV System or are yet to install one, a SENEK Solar Battery can enable you to use solar power 24 hours a day. SENEK is compatible with all systems, regardless of the manufacturer.

German company Senec-IES has begun shipping its battery storage units to the fast-growing Australian storage market, with 2,000 units to be supplied in the first six months of 2017.

A battery energy storage system from Leipzig-based Senec was affected by fire which broke out in the basement of a residential building under renovation in southwest Germany. The manufacturer said that the affected system was an "old" model, adding the cause of fire could be non-battery related.
