What did IEA's Africa Programme Officer say about Senegal?

Rita Madeira, the IEA's Africa Programme Officer, presented its key findings. "I welcome the conclusions of the review, which generally align with our analysis regarding the relevance of the directions taken by the Government of Senegal in the energy sector," Mr Niane said.

Why is IEA partnering with Senegal?

"It also confirms the significant achievements in terms of strengthening the electrical system, promoting renewable energies, expanding universal access to electricity, and establishing a governance framework in line with the best standards." The IEA and Senegal have fostered close collaboration in recent years.

Is Senegal a fossil fuel producer?

Senegal is not a fossil fuel producer today, but major gas discoveries are expected to change the picture and to lead to gas production of 9.5 bcm in 2040 in the STEPS. The greater availability of gas helps displace oil use in power generation in domestic markets while also bringing considerable export revenues. billion dollars (2018) IEA.

What is the hydro potential of the Senegal River basin?

The Senegal River Basin's hydro potential is estimated at 1,200 MW, of which only 260 MW has so far been developed. During the 1990s a Special Purpose company - Sociéte de Gestion de l'Energie de Manantali (SOGEM, jointly owned by all three OMVS countries) was established.
