

# Sierra Leone noriker power ltd

Who is Noriker power?

Noriker Power, headquartered in Gloucester, has developed and constructed over 250 MW of battery storage across the United Kingdom and has a near term pipeline in excess of 500 MW in battery storage, hybrid energy and stability service projects.

Is Equinor acquiring Noriker Power Limited?

Equinor has signed an agreement with Noriker Power Limited, a leading battery storage developer in the United Kingdom focusing on the engineering and project development of utility scale storage and stability services. The agreement includes the acquisition of a 45% stake in Noriker, with an option to acquire the full company at a later stage.

Who is Noriker?

Noriker was one of just two companies in the UK to go live at the launch of National Grid's challenging Dynamic Containment service in September 2020, thanks to our innovative approach in the design and implementation of our proprietary control system.

What does Equinor do with Noriker?

Equinor and Noriker enter a development co-operation agreement. The agreement includes the acquisition of a 45% stake in Noriker by Equinor, with an option to acquire the full company at a later stage. In addition to the equity investment, Equinor are granted the opportunity to directly participate in projects being matured by Noriker.

What is power Leone?

Power Leone stands as the cornerstone of Energicity's operations. With solar mini grids established in 30 communities, we bring reliable and sustainable power to over 7,000 customers. Sierra Leone Rural Renewable Energy Project

Does Equinor have a stake in Noriker?

The agreement includes the acquisition of a 45% stake in Noriker, with an option to acquire the full company at a later stage. In addition to the equity investment, Equinor and Noriker have agreed on a strategic cooperation which will grant Equinor the opportunity to directly participate in projects being matured by Noriker.

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.
