Our quality target is pursuing advanced technique, top quality and high efficiency.

Solar reflective glass is produced by applying a metallic layer onto the glass surface. The process is the so-called magnetically enhanced sputtering under vacuum. With a mirror-like appearance, the solar reflective coating reduces solar heat gain by reflecting and absorbing solar energy.

Under PDP 8, solar power is projected to reach 20,591 MW by 2030 and 189,000 MW by 2050, generating 252-291 billion kWh annually. By 2050, solar power is expected to become Vietnam's largest electricity source, accounting for over 38.5 percent of ...

Sinotech's larger solar panels carry a 25 Year Performance Warranty, which means that even after 25 Years in operation, your solar panels will still be making at least 80% of the power they did on Day 1. Thanks to new energy regulations coming into operation, you can sell any excess power you produce back to your power provider (where allowed)

The Commerce Ministry has advised a Chinese company, M/s Sinotec Solar (Pvt) Ltd to consider forming a Joint Venture (JV) with a local company M/s Ghani Glass and start local manufacturing of solar panels in Pakistan. In this regard Sinotech solar had put forward some conditions to consider local manufacturing. According to sources the representative [...]

Sinotech solar Vietnam

Solar panels earning a Good rating are a safe and solid choice for your solar energy system under most circumstances. These panels are in the average range for most or all technical criteria analyzed, though may offer a shorter-than-average warranty. Good solar equipment is ideal for solar shoppers seeking a bargain for their solar energy system.
