Description: The Dyness Rack System HV series lithium battery have high capacity with safe BDU system, long life cycles and good performance. Maximum energy capacity of single unit is 56.3kWh with customized choice. Keep your business powered on all the time. Warranty: 10 Years T's & C's Apply. Lead Time: 1 - 3 Days.

They replaced the rear drive unit because of the DU Isolation problem and ultimately swapped by original HV battery back in the vehicle. Then they said that they fixed an issue with the battery with a &quot;software update&quot;. They instructed me to drive the vehicle and cycle the battery and the BMS will be adjusting the capacity over the next few weeks.

The Battery Disconnect Unit (BDU) contains the contactors, fuses, pre-charge circuit and current sensors. This unit sits inside/on top of the battery pack and has all of the components for monitoring, activating, and deactivating the high-voltage battery system.
