What is the smappee app?

The Smappee App places smart charging and energy management firmly in your hands. It provides details about the cost of your energy usage. Make the most of tracking, managing and optimizing your energy consumption and have everything at your fingertips to charge and use energy in the most cost-effective way.

How does smappee work?

Smappee collects real-time and historical production and consumption data, down to the appliance level. It does this by offering the most complete set of submetering options available on the market. Accurately submeter at the source by attaching current clamps or modules for data measurement to the distribution panel.

Why should you join smappee?

Join the Smappee community and receive our monthly newsletter. Smappee helps you drive a better future with smart charging and energy management solutions. For home and for business.

What is the smappee power box?

The Smappee Power Box measures the line voltage of the connected phases, collects the currents from the CTs and calculates power, active, reactive and other energy and power quality data. The Smappee Genius is the gateway between the Smappee modules and the Smappee Cloud and ensures secure data storage.

What is smappee genius?

The Smappee Genius is the gateway between the Smappee modules and the Smappee Cloud and ensures secure data storage. It also interacts with Smappee's controlling modules and 3rd party components. Use the Smappee Connect or Wi-Fi Connect as a cost-efficient way to add communication to the Smappee Infinity.

Bied Energy-as-a-service (EaaS) aan. Versnel je bedrijf als aggregator of energiedienstverlener (ESP) met Smappee's kant-en-klare oplossing. In plaats van alleen kilowatturen te leveren, bied je energiediensten op abonnementsbasis aan door middel van opvolging, geautomatiseerd beheer op afstand en optimalisatie van elektrische ladingen en energieverbruik.

Smappee Infinity is a truly comprehensive energy management system that gives clients the insights, data and tools to manage their energy consumption and optimize their use of renewable energy. It allows you to add solar, gas and water to get a detailed overview of all energy flows and manage them to take full advantage of all self-generated ...

Communicatieprotocollen. Smappee breidt zijn ecosysteem voortdurend uit met compatibele IoT-producten en -diensten van derden. Het systeem gebruikt Ethernet, Wi-Fi, 2G/4G, IP-gebaseerde verbindingen en standaarden zoals Modbus RTU en IoT-communicatieprotocollen MQTT en EEBUS om een snelle ontwikkeling van nieuwe toepassingen mogelijk te maken en integraties ...

L'intelligence de Smappee vous aide à diriger vos dépenses. Les fonctions intelligentes de Smappee vous garantissent une recharge totale au moment où vous en avez besoin. Et ce, au meilleur prix. Le système de prévision solaire permet de charger de manière optimale vos appareils avec l'énergie solaire et notre ...

Press and hold the button on the side of the Smappee monitor. The color of the LED will change. Release the button once the color is steady blue. Please ignore all other colors. Smappee will retur...

The Smappee smart cloud is a Smappee innovation that puts a further level of security between our electric vehicle charging stations and third-party payment backend technology. It provides an encrypted connection where your data and readings are converted into the user-friendly statistics displayed on the Smappee app.

About Smappee. At Smappee, we're not just frontrunners in EV charging and energy management, we are pioneering solutions that make tomorrow smarter, greener, and a lot more exciting. Our mission is to empower businesses and homeowners with cutting-edge technology that transforms energy usage and management.

Maximize efficiency and cut costs with the advanced energy management features of the Smappee Infinity. Residential and commercial voltage monitoring and dynamic load balancing between solar, EV & other appliances.

Here you can see what values are measured by each clamp connected to the Smappee. You can see what load the phase represents and to what input of the Smappee they are connected. You can also see if an individual reverse is active on the phase and how good the quality of the measured power is (cos fi).

Export and save energy data. Use the Smappee Dashboard as your primary energy data gathering tool. Export your energy data as an Excel or CSV file and analyse it in the program of your choice or save it for future reference on a hard drive, USB, in the cloud, etc. 7. Monitor power quality.

Alles-in-&#233;n slim energiemanagement systeem. Smappee Infinity biedt een totaaloplossing voor spanningsmeting en dynamisch load-balancing tussen zonne-energie, elektrische wagens en andere toestellen via een cloud-gebaseerde interface.

The icing on the cake is: the personalised Smappee experience! Enter tariffs and rates and get an even more accurate energy cost estimate. Go to Settings, tab "Your locations" and go to "Your Tariffs" to align the reported energy costs in the Smappee App with the tariffs and rates that are being applied by the energy supplier.

4 &#183; Smart charging becomes the norm, and Smappee leads the way. Energy management analytics: a driving force behind Smappee's energy insights. Self sufficiency at home in 10 effective steps. 3 ways to submeter appliances. Make buildings even smarter and more energy-efficient with the Smappee App.

Consultez l'assistance de Smappee. Suivez des programmes de formation, téléchargez des manuels et des spécifications, regardez des vidéos de démonstration et accédez au centre d'assistance clients.

Smappee contrôle non seulement la consommation, mais aussi la production, en fournissant des données granulaires en temps réel, historiques et prospectives, jusqu'au niveau de l'appareil ménager. ... Interconnectivity for energy efficiency projects. En plus de sa gamme complète d'options de données, Smappee contribue également à ...

The Smappee Energy provides an all-in-one, plug and play power monitoring solution for homes with single-phase power and can also monitor production from a solar panel system. Tracking consumption and even control of appliances is also possible with the Smappee Switch. Control of other smart devices can also be managed via the If This Then That ...

Solar electricity and energy efficiency are crucial components of our planet's sustainable energy future. To pave the way for policy and other organizations WWF launched the WWF Upfront program in 2016. This three-phased approach turns WWF's operations more energy efficient and powers them with renewable energy, one office at a time. At the base of ...

Smappee EV charging stations ensure cost-efficient charging of your car at home, work or on the road. Up to 6x cheaper. But that's not all. Smappee analyzes your consumption of electricity, solar energy, water and gas in real time making it easy for you ...

Smappee-laadpalen groeien slim mee met de behoeften van je bedrijf. Zo hou je je energieverbruik onder controle en laad je je wagenpark altijd tegen de beste prijs. Zakelijke laadoplossingen De slimste laadpaal voor elke situatie. Thuis. Fleet. Logistiek. Retail & Parking. Bouw & Architecten.

And that's not all, combined with the energy management technology Smappee Infinity, you also get instant insight into your entire energy consumption. Discover which are the biggest energy guzzlers and how self-sufficient you really are. Take immediate action and monitor how you use energy through the Smappee App and Dashboard.

The Smappee App places smart charging and energy management firmly in your hands. It provides details about the cost of your energy usage. Make the most of tracking, managing and optimizing your energy consumption and have everything at your fingertips to charge and use energy in the most cost-effective way.

Le marché énergétique connaît un bouleversement ; il verra la vente de kilowatt-heures vers des services énergétiques ; la demande. Smappee propose une plateforme qui répond à ces évolutions qu'elles se produisent. Sous-mesures de qualité ; utilitaire, n'importe quelle énergie en temps réel, service énergétique.
