Battery Storage System. A battery storage is an energy storing system that will use the energy produced by a Solar PV system or Wind Turbine to charge it so the electricity can be used at a later time enabling you to make the most of your renewable energy generation, maximising savings and lowering your impact on the environment.

At the end of March, we installed a Smart Energy Solutions system. We have a significant reduction in gas usage since installing this system and it is saving us a fortune. The reduction in gas usage from September 2022 to September 2023 is almost half. Installing a Smart Energy Solution in our investment property means that we have reduced our ...
